1 System Overview

What is Chronexa TimePro?

Chronexa TimePro is a comprehensive, web-based Workforce & Attendance Management System. It unifies employee scheduling, real-time attendance tracking through biometric devices and web punch, leave and permission management, multi-level approval workflows, and detailed reporting within a single, integrated platform.

Role-Based Access

The system operates on a Role-Based Access Control (RBAC) model. Four primary roles govern what each user can see and do:

Role	Modules Accessible	Description
Admin	All modules — Dashboard, Company Master, Organisation, Employee Master, Scheduling, Self Services, Manage Approvals, Reports, Configuration, Settings, Alerts, User Management	Full system access. Configures all master data, roles, and settings.
Manager	Dashboard, Scheduling, Self Services, Manage Approvals, Reports	Manages team schedules, approves leave and punch requests, and views team attendance.
User Admin	Dashboard, User Management, Manuals	Creates and maintains portal login accounts — usernames, passwords, and app access type — for employees across the organisation.
Timekeeper	Self Services, Reports	Records and manages attendance punches for an assigned area and submits missing-punch corrections.

Module Access Summary

Module	User Admin
Dashboard — User Insights	✓ (My ☐ te ☐ da ☐ e)
Company Master	—
Organisation	—
Employee Master	—
Scheduling	—
Self Services	—
Manage Approvals	—
Reports	—
Configuration / Roles	—

Settings	—
Alerts	—
User Management — Users	✓ (□iew , □reate, U □date)
Manuals — Digital Manuals	✓ (□iew , D □w □I□ad)

2 Login & Authentication

All users — Admin, Manager, User Admin, and Timekeeper — access Chronexa TimePro through the same login screen. After sign-in, the system automatically loads the dashboard and sidebar modules permitted by the user's role

Login Steps

1. Open the Chronexa TimePro URL in your browser (for example, *wfm.khidmah.com:4000*).
2. Enter your **Username** in the first field.
3. Enter your **Password**. Use the eye icon to toggle visibility.
4. Optionally select **Remember Me** to stay signed in.
5. Select the **LOGIN** button.
6. Alternatively, select **Sign In With Azure AD** to authenticate through Microsoft Azure Active Directory.

Forgot Password

Select the **Forgot Password?** link on the login screen, then enter your registered email address. The system sends a password-reset link to your inbox.

TIP After login, the sidebar reflects only the modules your role permits. Admins see all 12+ menu items, Managers see four, User Admins see three, and Timekeepers see two.

3 User Admin Role — Module Reference

ROLE USER ADMIN

The User Admin role has a focused set of three modules: **Dashboard**, **User Management**, and **Manuals**. User Admins are responsible for creating and maintaining the portal login credentials that allow employees, managers, and timekeepers to access Chronexa TimePro.

TIP User Admin sidebar modules: Dashboard · User Management · Manuals.

4 Dashboard

ROLE USER ADMIN

For a User Admin, the Dashboard module provides access exclusively to the My Attendance view. This gives the User Admin visibility into their own attendance summary, leave balances, and punch discrepancies, in the same way it would for any other portal user.

My Attendance Overview

The My Attendance screen is organised into two areas: a row of summary tiles at the top, and a Discrepancies panel below that highlights attendance exceptions.

FIGURE *Dashboard — My Attendance*

Dashboard — Field Reference

Tile	Description
Working Days	Number of scheduled work days for the current period.
Total Leaves	Total leave entitlement allocated to the user.
Leaves Taken	Number of leave days used so far this month.
Monthly Absent	Count of unapproved absences recorded in the month.
Approved Leaves	Count of approved leave requests.
Pending Leaves	Remaining leave balance pending approval.

Discrepancies	Donut chart and tiles summarising Late, Early, Missed In, and Missed Out punch exceptions, with an option to download the breakdown.

5 User Management

ROLE USER ADMIN

The User Management module is the core of the User Admin role. It provides full visibility into every portal account in the system and the tools to create new login credentials or update existing ones.

Users Sub-Module

Tab	Access	Description
Users	View, Create, Update	Master list of all portal user accounts across organisations, with tools to add new users and update existing usernames and passwords.

FIGURE User Management — Users List

The screenshot displays the 'Users List' page in the Chronexa TimePro application. The interface features a sidebar on the left with navigation options: Dashboard, User Management (selected), and Manuals. The top header shows the Chronexa logo and the user profile of 'Durga' with the role 'USER_ADMIN'. The main content area includes a search bar and filters for 'Organization' (set to 'Choose Organization') and 'App Type' (set to 'All'). Below the filters is a table listing users with columns for Number, Name, Email, Username, and Password. Each row includes an 'Update' button next to the password field.

Number	Name	Email	Username	Password
82773	Alidonas Oruta	a.sayed@sparksec.ae	No username	—
82769	Abdalla Mohamed Magdy Riad Abdelmonem Ed	a.edres@ecss.ae	No username	—
82768	Surya Selvam	s.selvam@khidmah.com	No username	—
37840	Yub Bahadur Yubat B K	t.beg@sparksec.ae	yub.37840@chronexa.ai	I6oPk7Tf Update
37839	Santosh Khadka	t.beg@sparksec.ae	santosh.37839@chronexa.ai	gtarBza7 Update
37838	Asuman Kakungulu	t.beg@sparksec.ae	asuman.37838@chronexa.ai	rtTZKMX Update
37837	Rajesh Bishwokarma	t.beg@sparksec.ae	rajesh.37837@chronexa.ai	9KRpvKCK Update
37836	Dipak Sunuwar	t.beg@sparksec.ae	dipak.37836@chronexa.ai	qcGm1bc Update
37835	Vighnesh Sanilkumar	t.beg@sparksec.ae	vighnesh.37835@chronexa.ai	o3FXC1n2 Update

Users List — Field Reference

Column	Description
Number	Unique employee number associated with the account.
Name	Full name of the employee.

Email	Registered email address for the employee.
Username	Portal login username. Displays “No username” if a login has not yet been created.
Password	Masked password value with an Update action; shows a dash (—) when no account exists yet.

Use the **Organization** and **App Type** drop-down filters above the list to narrow results, or use the **Search** field at the top right to locate a specific employee by name, number, or email.

How to Create a New User

Navigate to **User Management** in the left sidebar.

Select the **+ ADD** button at the top right.

FIGURE Create User Form

Enter a **Username** for the account.

Enter a **Password** for the account.

Select the **Employee** from the drop-down to link the login to the correct employee record.

Select the **App Type** the employee will use to access the system.

Toggle **License** and **Web App** on or off as required for the employee's access.

Select **SAVE** to create the account, or **Cancel** to discard the form.

How to Update an Existing User

Navigate to **User Management** > **User**.

Locate the employee using the search field or organisation/app type filters.

Select **Update** next to the employee's existing Password field.

Make the required changes to the username or password and save.

TIP Employees without an existing login display “No username” and a dash in the Password column. Use + ADD to create their first set of credentials rather than Update.

6 Manuals

ROLE USER ADMIN

The Manuals module gives User Admins direct access to the official Chronexa TimePro digital manuals for every role, so reference documentation can be shared with employees, managers, and timekeepers as needed.

Digital Manuals — Field Reference

FIGURE Manuals — Digital Manuals

Manual	Description
Admin Manual	Full reference guide for the Admin role, covering all system modules.
Manager Manual	Reference guide for the Manager role, covering scheduling, approvals, and reporting.
Employee Manual	Reference guide for the Employee self-service experience.
Timekeeper Manual	Reference guide for the Timekeeper role, covering punch management and reporting.

Downloading a Manual

Navigate to **Manuals** > **Digital Manuals**.

Locate the manual card for the required role.

Select **Download** beneath the manual title to save the PDF to your device.

TIP Share the relevant manual with new employees during onboarding so they understand the modules available to their role.

Appendix A — Role Privilege Summary

The table below consolidates the exact privilege flags granted to the User Admin role across every module and sub-tab.
