1 System Overview

What is Chronexa TimePro?

Chronexa TimePro is a comprehensive, web-based Workforce & Attendance Management System. It unifies employee scheduling, real-time attendance tracking through biometric devices and web punch, leave and permission management, multi-level approval workflows, and detailed reporting within a single, integrated platform.

Role-Based Access

The system operates on a Role-Based Access Control (RBAC) model. Three primary roles govern what each user can see and do:

Role	Modules Accessible	Description
Admin	All modules — Dashboard, Company Master, Organisation, Employee Master, Scheduling, Self Services, Manage Approvals, Reports, Configuration, Settings, Alerts, User Management	Full system access. Configures all master data, roles, and settings.
Manager	Dashboard, Scheduling, Self Services, Manage Approvals, Reports	Manages team schedules, approves leave and punch requests, and views team attendance.
Timekeeper	Self Services, Reports	Records and manages attendance punches for an assigned area and submits missing-punch corrections.

Module Access Summary

Module	Manager	Timekeeper
Dashboard — User Insights	✓ (limited)	—
Company Master	—	—
Organisation	—	—
Employee Master	—	—
Scheduling	✓	—
Self Services — Punches	✓ (Team)	✓ (My & Team)
Self Services — Leaves	✓ (Team)	—
Self Services — Permissions	✓ (Team)	—
Manage Approvals	✓	—
Reports	✓	✓

2 Login & Authentication

All users — Admin, Manager, and Timekeeper — access Chronexa TimePro through the same login screen. After sign-in, the system automatically loads the dashboard and sidebar modules permitted by the user's role.

Login Steps

1. Open the Chronexa TimePro URL in your browser (for example, <https://timepro.chronexa.ai>).
2. Enter your **Username** in the first field.
3. Enter your **Password**. Use the eye icon to toggle visibility.
4. Optionally select **Remember Me** to stay signed in.
5. Select the **LOGIN** button.
6. Alternatively, select **Sign In With Azure AD** to authenticate through Microsoft Azure Active Directory.

Forgot Password

Select the **Forgot Password?** link on the login screen, then enter your registered email address. The system sends a password-reset link to your inbox.

TIP After login, the sidebar reflects only the modules your role permits. Admins see all 12+ menu items, Managers see four, and Timekeepers see two.

3 Manager Role — Module Reference

ROLE MANAGER

The Manager role has access to four key areas: **Scheduling**, **Self Services**, **Manage Approvals**, and **Reports**. This guide covers each module from the manager's perspective.

TIP Manager sidebar modules: *Scheduling · Self Services · Manage Approvals · Reports*.

4 Scheduling

ROLE MANAGER

Managers can view and manage schedules for their teams. The Scheduling module provides access to shift templates, weekly patterns, holidays, and Ramadan dates within the manager's organisation scope.

Sub-Tab	Manager Access	Description
Schedules	View	Shift templates (Code, Colour, In Time, Out Time, Required Hours).
Weekly Schedule	View	7-day repeating patterns for an org unit or individual employee.
Monthly Schedule	View, Create, Edit, Filter	Calendar-based roster per employee per day.
Holidays	View	Public holiday dates per organisation.
Ramadan Dates	View	Ramadan period dates with reduced-hours schedules.

Assigning a Monthly Schedule

1. Go to **Scheduling** → **Monthly Schedule**.
2. Select the **Organisation Schedule** or **Employee Schedule** tab.
3. Select the organisation unit or individual employee.
4. Assign a schedule code for each day of the week (or **Off** for rest days).
5. Save the schedule.

5 Self Services

ROLE MANAGER

Managers use Self Services to view their own punch records and to manage team requests for leaves, permissions, and punch corrections.

Punches

Tab	Access	Description
My Punches	View	Personal punch transaction history (IN / OUT with timestamps).
Team Punches	View	Punch records for all direct reports.
Missing Punches	View	Flag and manage missing punches for team members.

Leaves

Tab	Access	Description
Manage	View	Leave type reference (admin-configured types).
My Request	View	The manager's own leave requests.
Team Request	View	All pending and actioned leave requests from direct reports.

Permissions

Tab	Access	Description
Manage	View	Permission type reference (admin-configured).
My Request	View	The manager's own permission requests.
Team Request	View	All pending permission requests from direct reports.

6 Manage Approvals

ROLE MANAGER

Manage Approvals is the manager's primary queue for all pending team requests. In this configuration, the Manager role has access to **Team Requests** → **Missing Puncthes**.

Sub-Module	Manager Access	Description
Team Requests — Missing Puncthes	View	Review employee missing-punch submissions with remarks and attachments.
Team Requests — Permissions	—	Not available for the Manager role in this configuration.
Team Requests — Leaves	—	Not available for the Manager role in this configuration.

Approving a Missing Punch

1. Navigate to **Manage Approvals** → **Team Requests** → **Missing Puncthes**.
2. Filter by date range using **From Date** / **To Date**.
3. Review the employee's name, date, time, and remarks.
4. Select **Download** to view any supporting attachment.
5. Select the record(s) and choose **Approve** or **Reject**, with an optional comment.

7 Reports

ROLE MANAGER

Managers have access to Employee Reports to monitor their team's attendance over any date range.

FIGURE 7.1 — Employee Time Attendance Report Filters

Report Filters Available to Managers

Filter	Manager Scope
Vertical	Limited to the manager's assigned vertical.
Company / Organisation	Limited to the manager's company scope.
Department	Any department within their scope.
Employee Type	All employee types within scope.
Manager	Defaults to the logged-in manager; can filter a sub-team.
Employee	Any employee in their team.
Date Range	Any custom from/to date range.

Using the Report

1. Navigate to **Reports** → **Employee Reports**.
2. Set the desired filters (department, date range, employee).
3. Select **VIEW REPORT** to display results on screen.

Appendix A — Role Privilege Summary

The table below consolidates the exact privilege flags granted to each role across every module and sub-tab.
