1 System Overview

What is Chronexa TimePro?

Chronexa TimePro is a comprehensive, web-based Workforce & Attendance Management System. It unifies employee scheduling, real-time attendance tracking through biometric devices and web punch, leave and permission management, multi-level approval workflows, and detailed reporting within a single, integrated platform.

Role-Based Access

The system operates on a Role-Based Access Control (RBAC) model. Three primary roles govern what each user can see and do:

Role	Modules Accessible	Description
Admin	All modules — Dashboard, Company Master, Organisation, Employee Master, Scheduling, Self Services, Manage Approvals, Reports, Configuration, Settings, Alerts, User Management	Full system access. Configures all master data, roles, and settings.
Manager	Dashboard, Scheduling, Self Services, Manage Approvals, Reports	Manages team schedules, approves leave and punch requests, and views team attendance.
Timekeeper	Self Services, Reports	Records and manages attendance punches for an assigned area and submits missing-punch corrections.

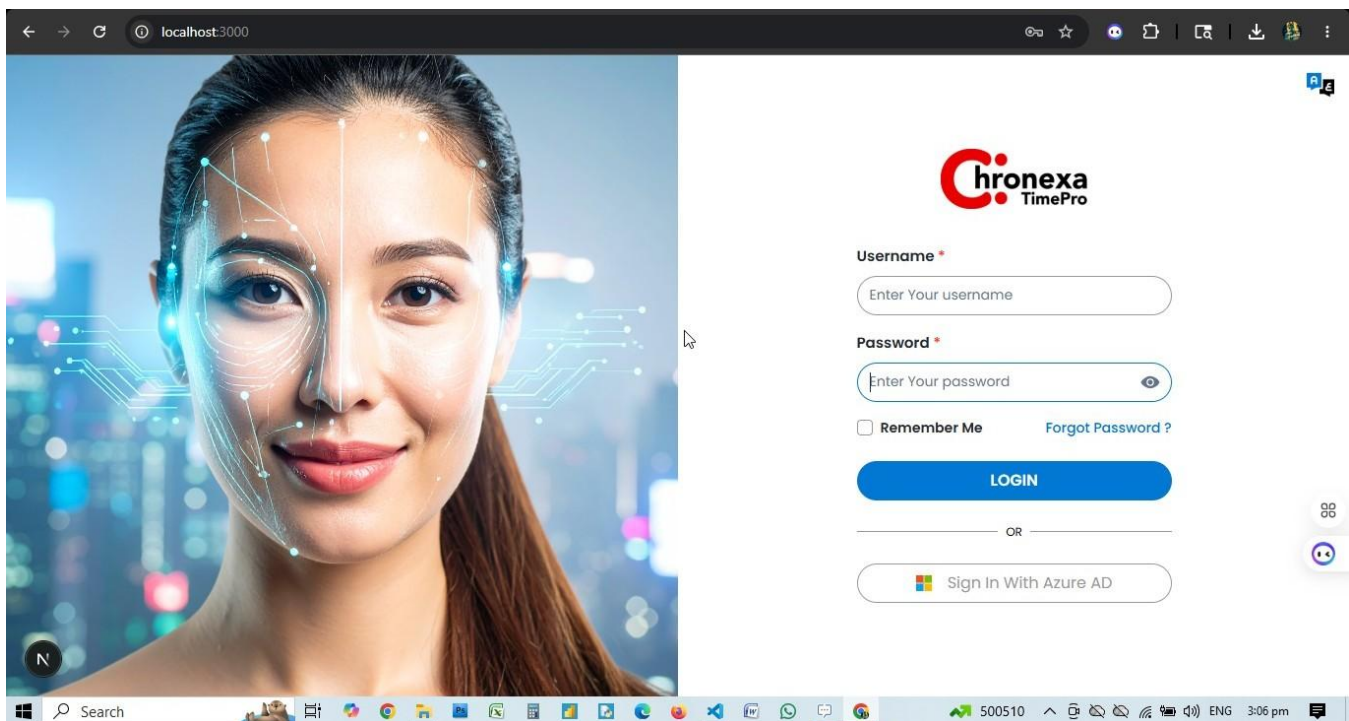

Module Access Summary

Module	Timekeeper

2 Login & Authentication

All users — Admin, Manager, and Timekeeper — access Chronexa TimePro through the same login screen. After sign-in, the system automatically loads the dashboard and sidebar modules permitted by the user's role.

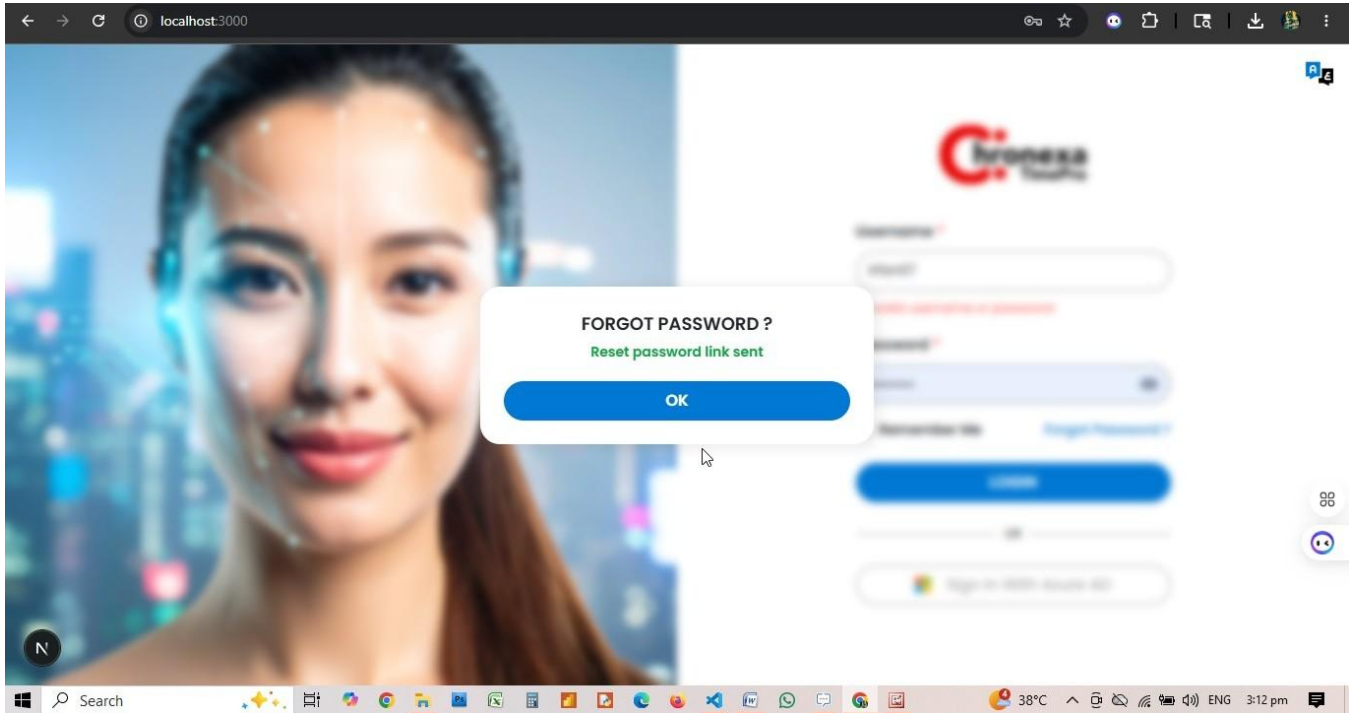

Login Steps

1. Open the Chronexa TimePro URL in your browser (for example, <https://timepro.chronexa.ai>).
2. Enter your **Username** in the first field.
3. Enter your **Password**. Use the eye icon to toggle visibility.
4. Optionally select **Remember Me** to stay signed in.
5. Select the **LOGIN** button.
6. Alternatively, select **Sign In With Azure AD** to authenticate through Microsoft Azure Active Directory.

Forgot Password

Select the **Forgot Password?** link on the login screen, then enter your registered email address. The system sends a password-reset link to your inbox.

TIP After login, the sidebar reflects only the modules your role permits. Admins see all 12+ menu items, Managers see four, and Timekeepers see two.

3 Timekeeper Role — Module Reference

ROLE TIMEKEEPER

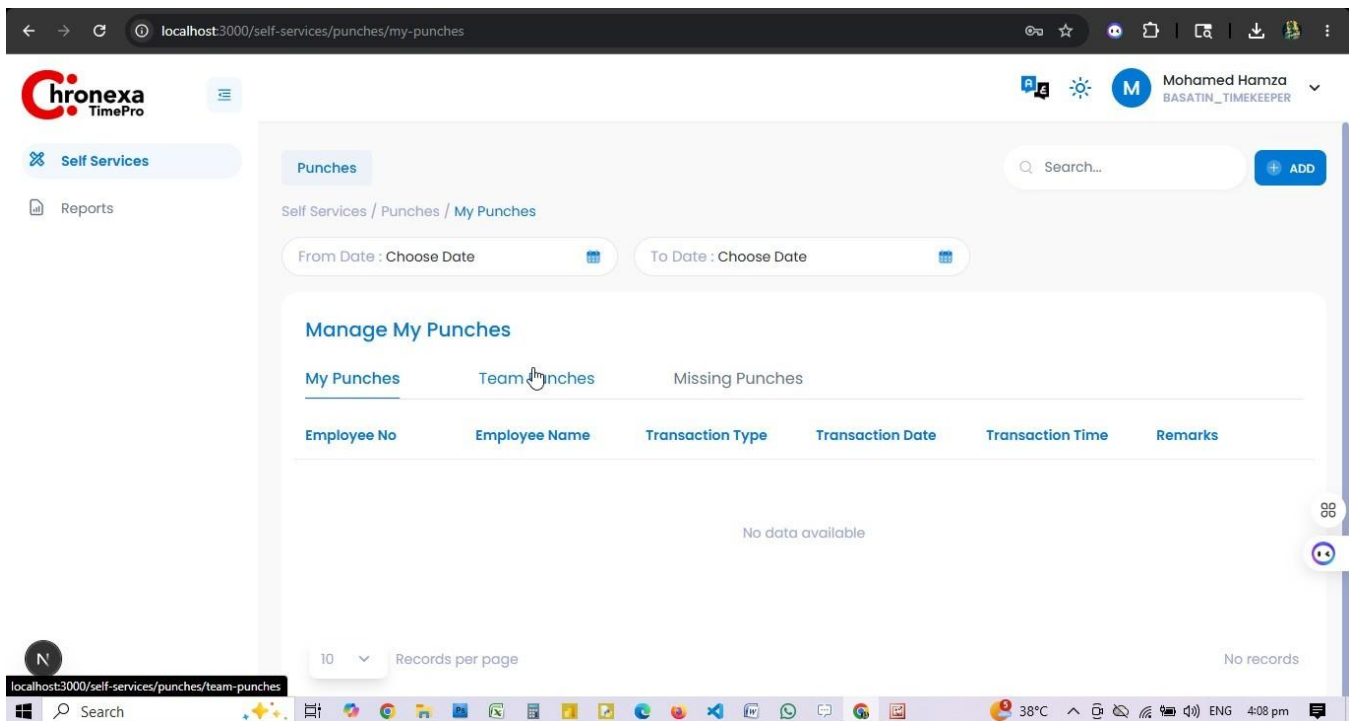

The Timekeeper role has a focused set of two modules: **Self Services** and **Reports**. Timekeepers are responsible for recording and correcting attendance punches for their assigned area.

TIP Timekeeper sidebar modules: Self Services · Reports.

4 Self Services

ROLE TIMEKEEPER

For a Timekeeper, the Self Services module provides access exclusively to the **Punches** sub-module. This allows the Timekeeper to view their own punches, manage team punches, and flag missing punches.

Punches Sub-Module

Tab	Access	Description
My Punches	View	Personal punch history: Transaction Type (IN / OUT), Date, Time, Remarks.
Team Punches	View	Punch records for all employees in the Timekeeper's assigned area.
Missing Punches	View, Create	Identify and submit missing-punch records for employees.

My Punches — Field Reference

Column	Description
Employee No	Timekeeper's employee number.
Employee Name	Timekeeper's full name.
Transaction Type	IN or OUT.
Transaction Date	Date of the punch record.
Transaction Time	Exact time of the punch.
Remarks	System-generated note (for example, "Punch via IDS integration — on time").

How to Add a Manual Punch

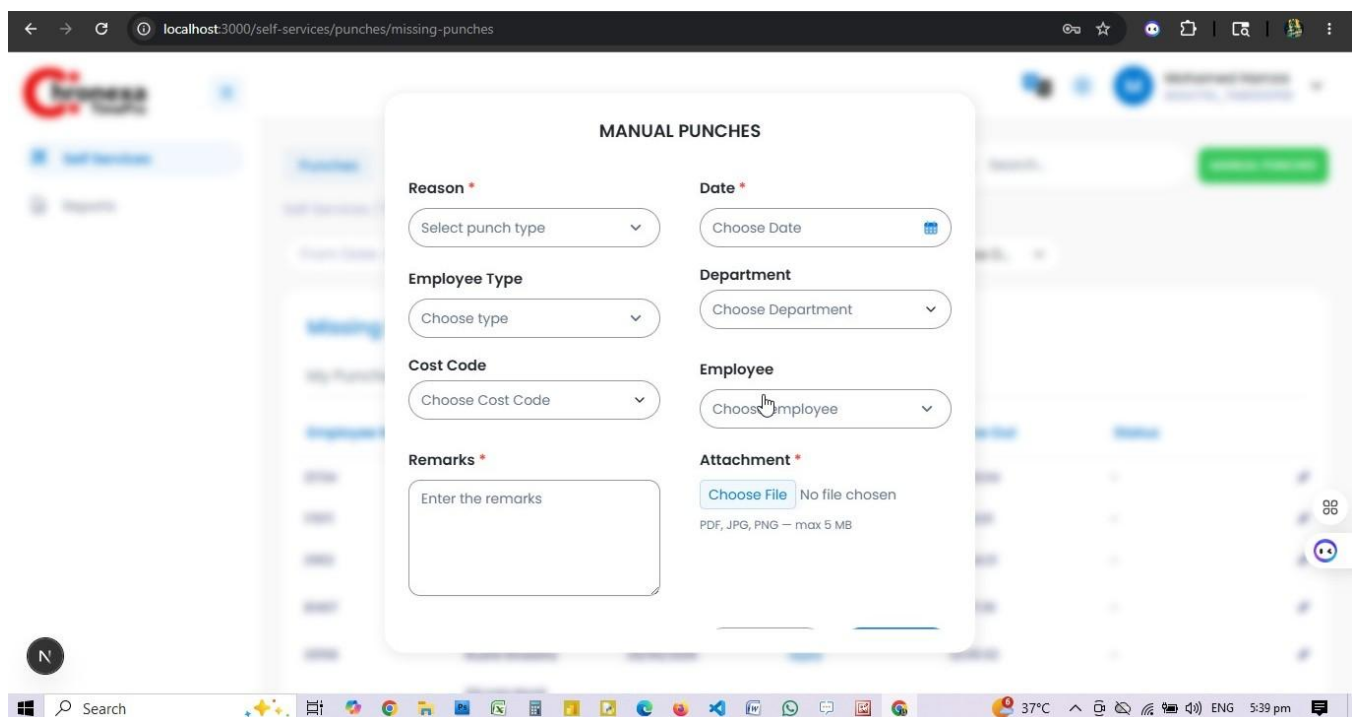

1. Navigate to **Self Services** → **Punches** → **My Punches** or **Team Punches**.

2. Select the **+ ADD** button at the top right.
3. Select the employee (for team punches), then enter the date, time, and punch type (IN / OUT).
4. Enter a remark explaining the reason for the manual entry.
5. Save the record. The punch appears in the list pending workflow approval.

Missing Punches — Timekeeper Workflow

The Missing Punches tab shows employees in the Timekeeper's scope who have an incomplete punch record for any date.

FIGURE 1.1 — Manual Punches Form

Column	Description
Employee No	Numeric employee ID.
Employee Name	Full name of the employee.
Date	Date of the missing punch.
Time In	Recorded check-in time (if available).
Time Out	Apply link if check-out is missing.
Status	Current status of the correction request.

1. Select **Apply** next to the Time In or Time Out column to record the missing punch.
2. Use the date filters (**From Date / To Date**) to narrow the view to a specific period.

3. Use the **Department** filter to scope to a specific department.
4. Use the **Manual Punches** button (top right) for batch manual entry.

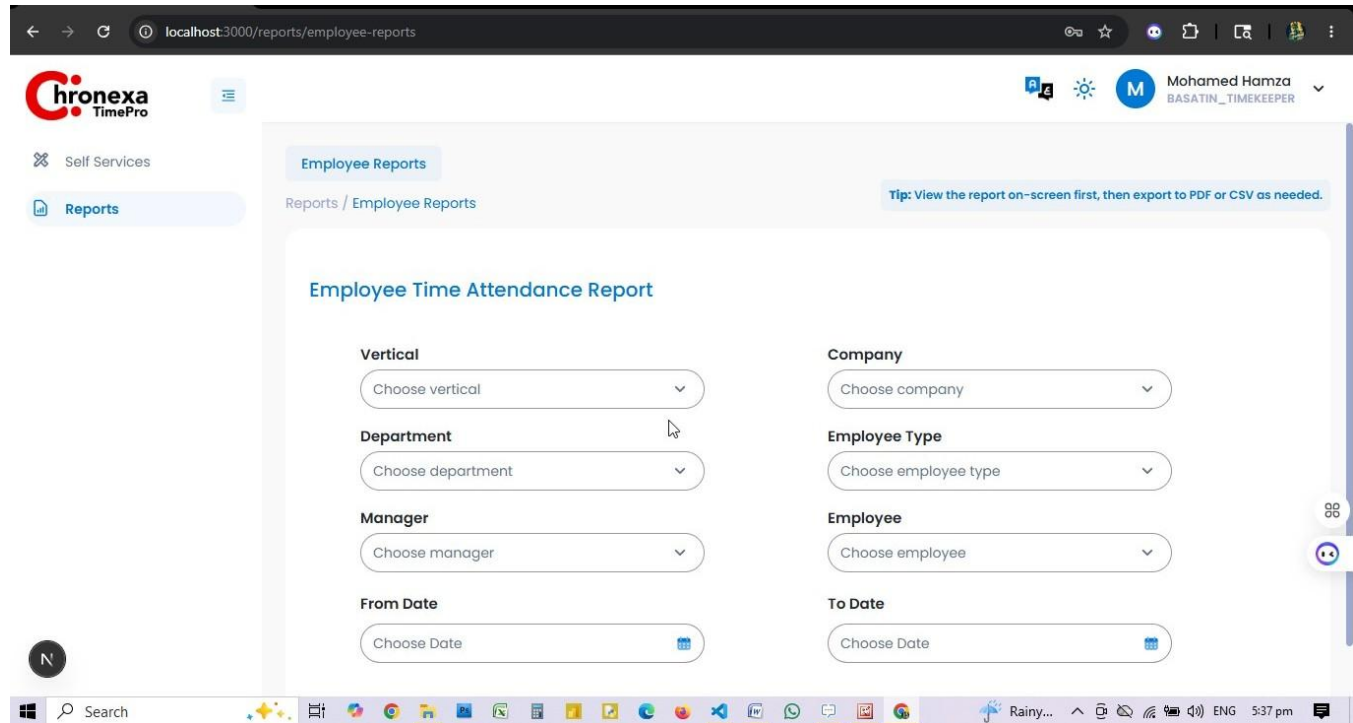

TIP Timekeepers do not have access to the Leaves or Permissions tabs. Only Punches (My Punches, Team Punches, Missing Punches) is available in Self Services.

5 Reports

ROLE TIMEKEEPER

Timekeepers have access to Employee Reports to view and export attendance data for employees in their assigned area.

FIGURE 2.1 — Employee Time Attendance Report

Report Filters Available to Timekeepers

Filter	Timekeeper Scope
Vertical	Scoped to the Timekeeper's assigned vertical.
Company / Organisation	Scoped to the Timekeeper's assigned company.
Department	Departments within their scope.
Employee Type	All employee types.
Employee	Any employee in their assigned area.

Filter	Timekeeper Scope
Date Range	Any custom from/to date range.

Using the Report

1. Navigate to **Reports** → **Employee Reports**.
2. Set filters (department, date range, employee).
3. Select **VIEW REPORT** to display results on screen.
4. Export to **PDF** or **CSV / Excel** as required.
5. Select **CLEAR** to reset all filters.

TIP View the report on screen first, then export to PDF or CSV as needed.

Appendix A — Role Privilege Summary

The table below consolidates the exact privilege flags granted to each role across every module and sub-tab.

Module / Tab	Timekeeper
